### Discontinuation Information

This product discontinuation notice serves as a formal notice that thinkRF is now discontinuing the D2030 Down Converter as of December 31st, 2021. The D2030 was developed to extend the frequency range of thinkRF's real-time spectrum analyser to 30 GHz. With the introduction of the D4000, thinkRF's award winning 40 GHz downconverter, the D2030 will be decommissioned.

As per standard practice, thinkRF will continue to support all existing D2030 warranties as well as any deals current sales activities. Any current sales activities must be closed by December 31st, 2021.

The standard warranty terms will be honored for all units shipped to date. Special orders in place and active prior to the announcement date will be honored according to the terms of that order, with regard to product availability, warranty, or support terms.

We appreciate your understanding and value your partnership. We look forward to thinkRF's continued support of your company's spectrum monitoring requirements in the years to come.

### Additional Information

The thinkRF D2030 RF Downconverter / Tuner is engineered to work seamlessly with existing spectrum analysis equipment by downconverting RF from the 27 - 30 GHz frequency bands down to an intermediate frequency (IF) from 3.55 GHz to 5.5975 GHz (optional)
