### Discontinuation Information

This product discontinuation notice serves as a formal notice that thinkRF is now discontinuing ongoing support for later versions of the Keysight VSA software including VSA2021 (or later) releases.

The standard warranty terms will be honored for all units shipped to date. Special orders in place and active prior to the announcement date will be honored according to the terms of that order, with regard to product availability, warranty, or support terms.

For existing E300 integrations in use, thinkRF recommends using VSA2020 software.

No alternate products will be available. We regret the inconvenience and impact this notice may cause. We appreciate your understanding and value your partnership. We look forward to thinkRF's continued support of your company's spectrum monitoring requirements in the years to come.

### Additional Information

The thinkRF E300 Enabler for Keysight 89600 VSA provides integration with Keysight VSA software versions up to VSA2020.
